SUMMARY

Passionate Full-Stack Developer skilled in MERN (MongoDB, Express.js, React.js, Node.js) stack. Excels in database management, API development, and UI design. Eager to contribute expertise to dynamic projects.

WORK EXPERIENCE

Javascript fullstack developer Intern , VG Tech   **Mar 2024 - Apr 2024**
- Interned as a JavaScript Fullstack Developer, creating software and company portfolios to showcase products and services.
- Experienced with React js , modern UI libraries and Animation Libraries.
- Experienced with React Native Fundamentals.

Web development Intern, Oasis Infobyte   **Feb 2024 - Mar 2024**
- Developed a MERN stack pizza ordering application with integrated payment functionality during my web developer internship.
- Experienced with a MERN stack and payment integration.

Web development Intern, Dlk career development   **Dec 2023**
- Interned as a Web Developer, crafting engaging landing pages with HTML, CSS, and JavaScript
- Experienced with a variety of web development tools to streamline workflow and enhance productivity.

EDUCATION

B.E in Computer Science Engineering with Fullstack development honors   **Nov 2021 - Present**
Velammal Engineering College , Chennai
- Specialization in Fullstack development.

SSLC, HSLC   **Jun 2018 - Mar 2021**
Sri Ramana Vidyalaya , Rajapalayam

TECHNICAL SKILLS

- **Frontend Web development:** React js,Tailwind CSS , Framer Motion
- **Backend Web development:** Node js,Express js
- **Database:** MongoDB
- **Version Control:** Git,Github
- **Chatbot development:** Wit.ai
- **Programming Languages:** C,C++,Java (Fundamentals)

PROJECTS

NEWSLETTER SUBSCRIPTION PLATFORM

- Built a MERN stack app for newsletters
- Users create publications, compose newsletters, manage subscriptions.
- Integrated authentication, Razorpay for payments, nodemailer for emails.

PIZZA ORDERING APPLICATION

- Built a MERN stack app for pizza ordering
- Users can place orders and make payments via Razorpay
- Admin panel allows for order management and addition of new pizza varieties.

PITSTOP - A CHATBOT

- Helps travelers find restaurants between highway routes during long journeys.
- Function: Users search for nearby restaurants via chatbot interface and deployed on Telegram
- Tech Stack: Wit.ai for natural language processing, Node.js backend

COLLEGE QUERY BOT

- Purpose: Helps parents gather college information pre-admission.
- Functionality: Enables inquiries on admission, courses, facilities.
- Tech Stack: Wit.ai for NLP, React js frontend , Node.js backend and deployed on Telegram.

PERSONAL PORTFOLIO

- Developed a personal portfolio website using React.js and Aceternity UI, a sleek and modern UI framework.

PRODUCT PORTFOLIO

- Developed a product portfolio website using React.js , Framer motion

---

AREA OF INTEREST

- FRONTEND DEVELOPMENT
- MODERN UI LIBRARIES
- WEB APPLICATION DEVELOPMENT

CERTIFICATIONS

- Certification of completion - Value added course on MERN stack development
- Certificate of completion - AI ChatGPT Complete Guide: Prompt Engineering Masterclass (Udemy)
